

HISTORY, VISION AND INVITATION

The Hein-Fry Book of Faith Challenge (HFBFC) launched in 2015 to enliven the biblical engagement of the whole church by encouraging the development of new examples of faithful, innovative and effective ways of teaching and learning Scripture.

The 2017 HFBFC has invited seminary students to explore new ways of engaging Scripture in a congregational or ministry setting. This year, we have been particularly interested in projects that engage our reformation heritage and its influence on our reading of Scripture. At this event, four students share their projects and learnings in a day-long event. A panel of practitioners, led by our keynote speaker, will respond to each presentation.

You are invited to join the conversation as we consider Scripture engagement together.
